GENERAL INFORMATION:

Ikirwa Primary and Secondary School was officially established in January 2013 in Midawe village, Arumeru District. We provide Tanzanian children with the Tanzanian curriculum as provided by the Ministry of Education.

English is a medium of learning and communication. We place great emphasis on building Tanzanian and African character and values in general, which will greatly help our students in their lives and not forget our values even if they have learned the technological life that is currently moving very fast. They will be prepared to be creative, confident, and highly innovative and use that technology without affecting their culture.

Our school is a day and boarding school and operates from Monday to Friday, (**weekends for special programs**). For boarding students, they are there all day until the vacation period when they go on vacation in June and December.

The academic year begins in **January** and ends in first week of **December**. The academic year has two terms.

Term 1: JANUARY-JUNE

Term 2: JULY – DECEMBER

Registration Procedures:

1. All application forms must be completed and returned to Ikirwa School Offices with the following:
 - 2 recent passport photographs (one of which must be affixed to the space provided in this form).
 - Birth certificate
 - A one-time application fee of 10,000/=
2. The selection of any child to attend any class will be based on the entrance examination for the relevant class after taking the English, Swahili, social studies, civics and moral education, science, and mathematics tests.
3. The examination will be held at Ikirwa School located in **Midawe village** and not elsewhere.

ACTIVITY STRUCTURE:

Registration will be final once the school receives payment for the relevant semester of studies for the enrolled student.

Thank you, and see you soon so that we can serve your child.
